

With Learning Rate = $5e-5$ (0.00005) [10x Smaller than Baseline]:

1. Code Changes:

- Changed the learning rate value from $5e-4$ (baseline) to $5e-5$ (10x smaller than baseline) on line 132:

```
learning_rate = 5e-5 # Learning rate for the optimizer
```

2. Output:
